ABC of Medically Unexplained Symptoms

Christopher Burton
University of Aberdeen, UK

Distressing for the patient and difficult to deal with, medically unexplained symptoms present one of the biggest challenges in primary care.

ABC of Medically Unexplained Symptoms:
• Presents a clear and practical guide to the identification and management of patients with symptoms not adequately explained by disease
• Provides an overview of general principles and techniques and discusses in detail specific common symptoms such as headache, pain, breathlessness, fatigue and dizziness
• Covers vital information on the assessment of symptoms, provides constructive explanations, and describes cognitive, behavioural and pharmacological approaches to treatment
• Explains how to communicate with patients and involve them in managing their own symptoms

JANUARY 2013 | 9781119967255 | 88 PAGES | £21.99 / €26.40 / $34.95 / AU$42.95

ABC of Multimorbidity

Stewart Mercer, Chris Salisbury and Martin Fortin
University of Glasgow and Penicuik Health Centre, Penicuik, UK; University of Bristol and William Budd Health Centre, Bristol, UK; Université de Sherbrooke, Canada

The challenges of treating and managing patients with more than one morbidity within primary care are complex.

ABC of Multimorbidity:
• Provides an understanding of the extent and effects of multimorbidities
• Addresses multifaceted issues including polypharmacy, mental health and patient safety
• Presents guidance on healthcare provision and planning from the GP consultation through to the effective use of a range of health care services
• Covers patient involvement in self-management and how multimorbidities can be best treated and managed through interventions to improve outcomes

APRIL 2014 | 9781118383889 | 88 PAGES | £21.99 / €26.50 / $33.95 / AU$42.95

ABC of Dementia
Bernie Coope and Felicity Richards
Kidderminster Hospital, UK

The management of dementia involves not only the patient but all those in contact with the patient including spouse and family members, as well as a range of both unpaid and professional care providers.

ABC of Dementia:

- Is a practical guide to providing the best care for patients with dementia within primary care settings
- Includes the diagnosis and assessment of dementia and distinguishes between the different cognitive presentations that may or may not be dementia
- Includes options for early intervention, drug treatments, behavioural and psychological symptoms, dementia in younger people, care pathways and the planning and provision of care at the end of life
- Provides guidance on the legal and ethical issues for dementia patients and their families

ABC of Sleep Medicine
Paul Reading
James Cook University Hospital, Middlesbrough, UK and South Tees NHS Trust, UK

Patients presenting with sleep-related symptoms are common in primary care, but assessing and managing these conditions can be difficult. ABC of Sleep Medicine is a practical illustrated guide to sleep disorders which will give health professionals confidence in this complex area of diagnosis and management. It:

- Clearly explains the differences between normal and abnormal sleep
- Examines individual disorders including sleep apnoea, insomnia, narcolepsy, restless legs syndrome and the parasomnias
- Explores sleep disorders as a comorbidity of neurodegenerative and psychiatric disease
- Addresses common sleep disorders in children
- Includes an overview of pharmacological treatments and how commonly used drugs might affect sleep

ABC of Dermatology
6TH EDITION

Rachael Morris-Jones
King’s College Hospital, London, UK

This major revision of a long established and successful text brings this resource fully up to date. ABC of Dermatology, 6th Edition:
• Provides a practical guide to the core knowledge base for diagnosis and treatment of common dermatological conditions for non-dermatologists
• Includes over 350 new full colour images to enable the identification and recognition of the most common dermatological presentations encountered within primary care
• Incorporates updates on new developments and treatments such as updates on psoriasis, eczema, inflammatory dermatoses and drug photosensitivity
• Covers the management of onychomycosis, scabies and lice, hair and scalp biological treatments, lymphoedema, community acquired MRSA, pityriasis rosea, immune reconstitution syndrome and antifungal drugs

MAY 2014 | 9781118520154 | 224 PAGES | £34.99 / €43.40 / $55.95 / AU$42.95

ABC of Wound Healing
2ND EDITION

Joseph E. Grey and Keith G. Harding
University Hospital of Wales, Cardiff and Cardiff University, UK; School of Medicine, Cardiff University, UK

ABC of Wound Healing, 2nd Edition is a fully illustrated practical guide to wound assessment, specific chronic and acute wound types, and the treatment of wounds and healing procedures. This new edition:
• Covers the assessment, diagnosis and management of all wounds - from traumatic to chronic, giving practical advice on dressings and devices used in the management of wounds
• Includes information on dressings, devices, drugs, surgery and physical, chemical, biological and emerging therapies for patients with wounds
• Is highly illustrated with full colour examples of wounds and treatments

MAY 2014 | 9780470658970 | 88 PAGES | £23.99 / €29.80 / $36.95 / AU$47.95

ABC of Domestic and Sexual Violence

Susan Bewley and Jan Welch
Kings College and NHS London, UK; King’s College Hospital and South Thames Foundation School, London, UK

ABC of Domestic and Sexual Violence is a practical guide for all health care professionals caring for abused individuals. This new ABC:

- Provides practical guidance on improving clinical skills and patient care in what is often considered a “sensitive” or “difficult” subject area
- Offers problem solving case-based scenarios with clinical tips on good practice and potential pitfalls
- Incorporates NICE guidelines throughout and meets the requirements of the Foundation Curriculum
- Includes clinical tips and pitfalls to clearly demonstrate key points and emphasizes simple history taking skills

APRIL 2014 | 9781118482186 | 112 PAGES | £21.99 / €26.70 / $34.95 / AU$42.95

ABC of Alcohol

Anne McCune
Bristol Royal Infirmary, UK

The misuse of alcohol presents both individual physical and psychological problems as well as wider social consequences. ABC of Alcohol, 5th Edition:

- Presents a practical guide to providing the best care for patients with alcohol related problems with multidisciplinary team perspectives
- Includes new chapters on alcohol and the young person, alcohol related liver disease, neurological problems, alcohol and the older person, alcohol and cancer, and the alcohol nurse specialist
- Contains a final resources chapter with further guidance on how to access appropriate service
- Offers improved coverage of the role of alcohol health workers and guidance on the availability of voluntary alcohol services
- Presents case study scenarios, examples of best practice, patient perspectives and testimonies throughout
- Incorporates current NICE guidelines and the Government’s Alcohol Strategy 2012

APRIL 2014 | 9781118544792 | 104 PAGES | £24.99 / €30.30 / $39.95 / AU$47.95
Major trauma and prehospital care is a growing area in medicine, and emergency treatments are becoming more sophisticated as the potential to save lives grows. This fourth edition of the long established and bestselling *ABC of Major Trauma* is:

- A comprehensive guide to the management of the multiply injured patient during the initial hours after injury
- Thoroughly updated throughout, and includes new material on trauma management in the developing world
- Provides concise and clear guidance with accompanying photographs and diagrams
- Edited and written by leading trauma authorities, this is a truly accessible and practical book for everyday use by emergency medicine staff, nurses, hospital doctors, paramedics, and ambulance services

**MARCH 2013 | 9780727918598 | 238 PAGES | £29.99 / €37.40 / $49.95 / AU$57.95**

Prehospital Emergency Medicine (PHEM) is a new and evolving field within Prehospital Care and involves the delivery of safe prehospital critical care to seriously ill or injured patients, and safe transfer to or between hospitals. *ABC of Prehospital Emergency Medicine*:

- Provides a comprehensive overview and evidence based guide to the life-saving emerging specialty
- Includes patient assessment, emergency care systems, transport and pre-hospital interventions
- Covers a broad range of medical and traumatic conditions, interventions, clinical providers and physical environments
- Essential reading to anyone involved in the delivery of Prehospital Emergency Medicine and Prehospital Care

**SEPTEMBER 2013 | 9780470654880 | 232 PAGES | £25.99 / €32.10 / $41.95 / AU$49.95**
ABC of Emergency Radiology
3RD EDITION

Otto Chan
The London Independent Hospital, London, UK

Rapid acquisition and interpretation of radiographs, portable ultrasound (US) and computed tomography (CT) are now the mainstay of initial successful management of sick and traumatized patients presenting to Accident and Emergency Departments. ABC of Emergency Radiology, 3rd Edition:

- Delivers a simple and logical step-by-step guide on how to interpret radiographs, US and CT
- Incorporates all the latest technological advances, including replacing plain radiographs with digital radiographs, changes in imaging protocols and the role of portable US and multidetector CT
- Comprises over 400 illustrations and annotated radiographs to clarify the procedures and interpretations
- Includes new chapters on emergency US and CT that reflect current practice

FEBRUARY 2013 | 9780470670934 | 194 PAGES | £29.99 / €37.30 / $47.95 / AU$57.95

ABC of Kidney Disease
2ND EDITION

David Goldsmith, Satish Jayawardene and Penny Ackland
Guy’s Hospital, London, UK; King’s College Hospital, London, UK; Camberwell, London, UK

ABC of Kidney Disease, 2nd Edition is a practical guide to the most common renal diseases to help healthcare professionals screen, identify, treat and refer renal patients appropriately and to provide the best possible care.

- Covering the common renal presentations in primary care this highly illustrated guide provides guidance on symptoms, signs and treatments, which tests to use, measures to prevent progression, and when and how to refer
- Fully revised in accordance with current guidelines, it also includes organizational aspects of renal disease management, dialysis and transplantation
- The appendices contain an explanatory glossary of renal terms, guidance on anaemia management and information on drug prescribing and interactions
- Ideal for GPs, GP registrars, junior doctors, medical students and for anyone working with patients with renal related conditions

MARCH 2013 | 9780470672044 | 110 PAGES | £27.99 / €33.50 / $44.95 / AU$52.95
Hypertension
6TH EDITION

Gareth Beevers, Gregory Y. H. Lip and Eoin O’Brien
City Hospital, Birmingham, UK; University of Aston, Birmingham, UK; Conway Institute of Biomolecular and Biomedical Research, University College, Dublin, Ireland

High blood pressure is a common chronic medical problem encountered in primary care, yet it is commonly under diagnosed. ABC of Hypertension is a long established, practical guide to the investigation, treatment and management of hypertensive patients. This sixth edition:

- Provides practical guidance on measurement of blood pressure and the investigation and management of hypertensive patients
- Explains new developments in measurement and automated measurement of blood pressure
- Includes updated coverage on treatment of the elderly and explains the implications of recent trials
- Incorporates current British Hypertension Society and NICE guidelines

JULY 2013 | 9780470659625 | 96 PAGES | £26.99 / €34.10 / $41.95 / AU$52.95

Resuscitation
6TH EDITION

Jasmeet Soar, Gavin D. Perkins and Jerry Nolan
Resuscitation Council (UK) and Southmead Hospital, North Bristol NHS Trust, UK; Resuscitation Council (UK) and University of Warwick Medical School, UK; Resuscitation Council (UK) and Royal United Hospital, Bath, UK

ABC of Resuscitation is a practical, illustrated guide to the latest resuscitation advice for the non-specialist and provides the core knowledge on the treatment of cardiopulmonary arrest. This sixth edition:

- Provides information on the European Resuscitation Council Guidelines for Resuscitation 2010 and the Resuscitation Council (UK) 2010 Resuscitation Guidelines
- Follows a clear structure throughout. Beginning with the causes and prevention of cardiac arrest and detailing basic and advanced life support for adults, children and newborns
- Addresses resuscitation in a range of contexts, both in-hospital and out-of-hospital, including drowning, pregnancy, sport and trauma
- Covers important aspects of implementation of guidelines including human factors and education

DECEMBER 2012 | 9780470672594 | 124 PAGES | £28.99 / €36.30 / $50.00 / AU$54.95
ABC of Cancer Care

Carlo Palmieri, Esther Bird and Richard Simcock
University of Liverpool, The Royal Liverpool University Hospital and The Clatterbridge Cancer Centre, Liverpool, UK; General Practitioner, Brighton, UK; Brighton and Sussex University Hospitals NHS Trust, Brighton, UK

Cancer care is multidisciplinary and takes place in both primary and secondary care. ABC of Cancer Care:

• Is a practical primary care guide to help health professionals better inform their patients, manage and recognize the common complications of cancers and their treatment, and understand the rationale and implications of decisions made in secondary and tertiary care
• Provides detailed coverage of the diagnosis, management, treatment and ongoing surveillance of common cancers within the multidisciplinary context of primary care
• Assesses the different treatment options, including surgery, radiotherapy and chemotherapy, and examines their possible side effects
• Covers the contribution of clinical trials and new advances in cancer treatment including biological and targeted therapies, robotic surgery and advanced radiotherapy techniques
• Includes all other aspects of cancer care, from nursing support and nutrition to psychological care and survivorship

AUGUST 2013 | 9780470674406 | 104 PAGES | £21.99 / €25.50 / $34.95 / AU$42.95

ABC of Breast Diseases

4TH EDITION

J. Michael Dixon
Edinburgh Breast Unit and Breakthrough Research Unit, Western General Hospital, Edinburgh, UK

Breast diseases are common and often encountered by health professionals in primary care. While the incidence of breast cancer is increasing, earlier detection and improved treatments are helping to reduce breast cancer mortality. The ABC of Breast Diseases, 4th Edition:

• Provides comprehensive, practical guidance to the assessment of symptoms, and how to manage all common breast conditions and provides guidelines on referral
• Covers congenital problems, breast infection and mastalgia, before addressing the epidemiology, prevention, screening and diagnosis of breast cancer
• Outlines the treatment and management options for breast cancer within different groups and includes new chapters on the genetics, prevention, management of high risk women and the psychological aspects of breast diseases

SEPTEMBER 2012 | 9781444337969 | 168 PAGES | £27.99 / €32.30 / $44.95 / AU$52.95
**ABC of Clinical Genetics**

*4TH EDITION*

**Edward S. Tobias**

University of Glasgow and Institute of Medical Genetics, Glasgow, UK

Recent advances in clinical genetics have had a considerable impact on other medical specialties. They have also led to the availability of a new range of diagnostic tests and more patients presenting to their general practitioners with questions and concerns about family histories of hereditary disorders. *ABC of Clinical Genetics, 4th Edition:*

- Provides an introduction to the various aspects of clinical genetics that general practitioners, family physicians and primary health care professionals are most likely to encounter
- Includes new content on lay support groups, new tests and methods in chromosomal analysis, an overview on risk interpretation, population screening programmes, genetics of cancer, prenatal diagnosis and treatment of genetic disorders
- Incorporates detailed guidance to further reading, other resources and a selection of particularly helpful online databases and websites for finding appropriate and up-to-date information regarding a variety of different genetic conditions

*APRIL 2014 | 9781118496831 | 120 PAGES | £26.99 / €32.50 / $41.95 / AU$52.95*

---

**ABC of Ear, Nose and Throat**

*6TH EDITION*

**Harold S. Ludman and Patrick J. Bradley**

King’s College Hospital, London, UK; Queen’s Medical Centre, University of Nottingham, UK

The *ABC of Ear, Nose and Throat* is a long established best-selling guide to the management of common conditions of the Ears, Nose and Throat. *New 6th Edition:*

- Follows a symptomatic approach for evaluation and prioritisation of common presentations
- Provides guidance on primary care assessment and management, and on when and why to refer for a specialist opinion
- Fully revised to reflect the current practice of oto-rhino-laryngology and head and neck surgery, new chapters address the increasing specialization and improved understanding of the likely causes and specialist treatment for symptoms such as tinnitus, nasal discharge, nasal obstruction, facial plastic surgery, head and neck trauma and foreign bodies, and non-specialist assessment and examination.
- Includes new content on rhinoplasty, pinnaplasty, non-melanoma skin tumours, thyroid disease and head and neck cancer
- Incorporates new full colour illustrations and algorithms throughout
- Is a reference book for GPs, junior doctors and primary care professionals and is an essential introduction for medical and dental students, nursing students, audiologists, speech and language therapists, and healthcare practitioners who come into contact with patients suffering from ENT symptoms, or previously managed with hospital ENT specialist care

*OCTOBER 2012 | 9780470671351 | 162 PAGES | £28.99 / €34.70 / $45.95 / AU$54.95*
